Josta® Berlin Shelter

The Berlin shelter is a very popular and sturdy modern shelter. The contemporary looking design really compliments any site, because of the light and open style of shelter it instantly blends into its surroundings. The elegant apex roof is fabricated from high strength security glass and can be installed with internal flood lighting giving excellent visibility. This versatile shelter can be installed single sided, with two shelters facing each other and also available as a wall-mounted option.

Features & Benefits

- Elegant apex roof
- Modular construction
- 5 year manufactures warranty
- Can be any height
- Small footprint
- Ideal for our high capacity Josta 2-tier racks

Size	Fixing	Frame	Cladding	Extras
Available in 2.5m widths (all shelters can be custom built to any size)	Embedded into a reinforced concrete base	Galvanised Mild Steel (can be powder coated in any standard RAL colour)	High strength security glass	Side & back panels can be mesh, security glass or timber, floodlighting

[click here for more information](#)

Josta® Berlin Compound

The Berlin Compound follows on from the Berlin Shelter by adding side panels, back panels and a door. This option is ideally suited to a location that requires a high security option as the bikes are completely enclosed and very secure. The shelter can be finished in a high security mesh that gives a very open and light feeling compound, alternatively the compound can clad in timber.

Features & Benefits

- Elegant apex roof
- Modular construction
- 5 year manufactures warranty
- Can be any height
- Small footprint
- Ideal for our high capacity Josta 2-tier racks

Size	Fixing	Frame	Cladding	Extras
Available in 5.5m widths (all compounds can be custom built to any size)	Embedded into a reinforced concrete base	Galvanised Mild Steel (can be powder coated in any standard RAL colour)	High strength security glass	Side & back panels can be mesh, security glass or timber, floodlighting

Josta® Pergola Shelter

The stylish Pergola shelter is a popular design across Europe. Because of its clever design the Pergola shelter can be scaled up to meet your exacting requirements. The smallest unit holds 8 bicycles but this can easily be altered to cover a larger area. The elegant design lends its self to traditional architecture but the strong lines look right at home in a modern development.

Features & Benefits

- Modern curved design
- Available in various lengths and widths
- Suits modern and traditional architecture
- Modular construction
- 5 year manufactures warranty
- Small footprint
- Ideal for our high capacity Josta 2-tier racks

Size	Fixing	Frame	Cladding	Extras
Available in 4m widths (all shelters can be custom built to any size)	Embedded into a reinforced concrete base	Galvanised Mild Steel (can be powder coated in any standard RAL colour)	Mild steel, Aluminium composite or Titanium zinc sheeting	Side & back panels can be mesh, security glass or timber, floodlighting
