## BikeAway Locker

### Overview

The BikeAway is a galvanised steel bicycle locker which stores the bike vertically. There is no metal-to-metal contact between the bike and locker and the bike is stored safely off the ground. Therefore, this locker is a popular option for schools, colleges and large organisations.

The cyclist uses their own padlock to lock the door. An override mechanism then allows the operator to obtain independent access to the locker when necessary, it is especially relevant for security-sensitive areas where spot-checks need to be carried out.

### Features & Benefits

- Space efficient – small footprint
- Sturdy 1.5mm galvanised steel construction
- Easy-to-use and suitable for use in schools
- 12 lockers fit into two standard car parking spaces.
- The legs can be adjusted to accommodate gradients.
- Coloured in RAL6005 (British Racing Green) or RAL5003 (Oxford Blue), other RAL colours are available for large quantities.

### Dimensions

Width: 680mm

Depth: 1150mm

Height: 1900mm to 2000mm

## About Cycle-Works

Cycling is our passion. We believe that cycling is good for people, good for society and good for the environment. This belief underpins every-thing we do. We believe that the provision of quality facilities will in-crease the use and acceptance of the bicycle.

All our employees and associates cycle regularly in diverse disciplines such as commuting, touring and long distance audax rides. We are active in both local and national cycle campaigning.

## Cycle-Works Products

- Individual bicycle lockers
- High capacity 2-tier racks
- Open access and lockable shelters
- Wide range of individual racks
- Vertical and horizontal wall mounted racks
- Custom-made solutions

## Cycle-Works Services

- Initial site visits and advice on product selection
