## Velo-Safe Locker

This high security and space-efficient bicycle locker can be arranged in many different layouts, including circles, semi-circles and back to back in a line. It has been specifically designed to fit sites that cannot accommodate bigger lockers, or that require flexibility with the layout. The Velo-Safe and Velo-Box cycle lockers have both been recently tested by Sold Secure, and awarded Bronze in their 'Security Cabinets' section. The standard locking option is users own padlock with master key.

### Features & Benefits

- Parks one bicycle per locker
- Sold Secure approved
- Can be arranged in a circle
- Very space-efficient and flexible
- Can be installed in many configurations
- Designed and "Made in Britain"

## StreetStore

The StreetStore is a new concept in secure high capacity cycle parking, offering a wide range of options. The units are modular and can be either lockable or open access, offering weather protection and extra security. They can be customised as required. Designed and patented by Cycle-Works and manufactured in the UK, the StreetStore is an innovative design made by modern, precision engineering techniques, involving a strong monocoque construction with a modular framework.

### Features & Benefits

- High capacity / hi-low-hi-low layout
- Options for door length
- Expandable design
- Designed and "Made in Britain"
- Fully protects the bike
- Easily relocated

Size (in mm)	Fixing	Frame	Locking	Extras

## Folding Bike Locker

The Cycle-Works folding bike locker is the best locker on the market and it is able to hold almost all folding bikes, not just the smaller Bromptons. Even with a larger folding bike in the locker, there is still room for a helmet, accessories, a rucksack and panniers. The innovative British design and construction also includes a unique design of lock that means it can be locked with either a D-lock, cable lock or padlock and still be accessed by the master override key.

### Features & Benefits

- Strong monocoque construction
- Mild / pre galvanised steel construction.
- Made and 'Designed and Britain'
- D-lock, cable lock or padlock.
- Master override key - high security.
- Available in any standard RAL colour.

Size (in mm)	Fixing	Frame	Locking	Extras
Height: 800 Width: 450 Depth: 900	Bolted to floor.	Galvanised & powder coated steel (any standard RAL colour).	ABLOY EXEC, Baton cylinder, Combination lock, Padlock, D-lock - All with master key.	Laser cut logo.

## Clothes Lockers

Our helmet and clothes lockers can be supplied in a number of sizes and colours to meet your particular requirements. They range from full-size single lockers to a unit of 6 smaller compartments in one vertical column. They are made of galvanised and powder coated mild steel. We have used the same high quality construction techniques we use on our durable and SoldSecure approved Velo-Safe and Velo-Box lockers to construct helmet and clothes lockers for outdoor use.

### Features & Benefits

- Each locker holds 1 bike
- Lockers can be installed back to back
- Quick and easy to install
- Made from recyclable materials
- Fully protects the bike
- Easily relocated

Size (in mm)	Fixing	Frame	Locking	Extras
Each column is: Height: 1800 Width: 400 Deep: 300	Bolted to ground with m10 bolts.	Galvanised & powder coated steel (any standard RAL colour).	ABLOY EXEC, Baton cylinder, Combination lock, Padlock, D-lock - All with master key.	Laser cut logo.

## BikeAway Locker

The BikeAway locker is a galvanised steel bicycle locker which stores the bike vertically. This individual locker is ideal where space is at a premium. They are particularly unobtrusive when fitted against a wall. There is no metal-to-metal contact between the bike and locker and the bike is stored safely off the ground. The small footprint means that 6 BikeAway lockers fit into just one standard car parking space with generous access for the cyclists.

### Features & Benefits

- Space efficient - small footprint
- Sturdy 1.5mm galvanised steel body
- Designed and "Made in Britain"
- Easy-to-use, suitable in schools
- fully protects the bike
- Easily relocated

Size (in mm)	Fixing	Frame	Locking	Extras
Depth: 1150 Width: 680 Height: 2000	Bolted to ground with m10 bolts.	Galvanised & powder coated steel (1.5mm thickness, 2.0mm thickness option)	Integrated lock & master key / high security padlock + master key / combination lock	Helmet lockers Extended/coloured back panel / 2mm strengthening bars within doors + doors
