Product Specification

Velo-Safe Locker

Description

This high security and space-efficient bicycle locker can be arranged in many different layouts, including circles, semi-circles and back to back in a line. It has been specifically designed to fit sites that cannot accommodate bigger lockers, or that require flexibility with the layout. Since its launch in October 2008, the Velo-Safe has been installed at many sites such as hospitals, universities, council sites, railway stations, large companies and residential developments. Standard locking option is users own padlock with master key override.

Features

- Parks one bicycle per locker
- SOLD SECURE approved
- Very space-efficient and flexible
- Can be installed in many configurations
- Various locking methods are available
- Customised to match surroundings or corporate
- Available with electronic access
