Overview

Armour Heavy Duty Clothes Lockers are designed to withstand the greater levels of wear and tear. Made from 70% thicker steel than a standard steel locker, with a welded front frame and heavy duty hinges for a long life. Constructed from thick 1.2mm pre galvanised steel.

These lockers are ideal for high traffic areas and where a high security option is paramount.

These lockers are also fitted with 5 knuckle hinges and a heavy duty cam lock and security shelves to prevent unauthorised access.

Features & Benefits

- Armour Heavy Duty Lockers with up to 6 compartments available (1, 2, 3 and 4 doors also available).
- Ideal for use in heavy industry environments and high traffic areas
- Reaction to Fire Classification: A2-s2, EN 13501-1:2007 + A1:2009.
- High grade steel carcass and doors for greater rigidity and prevent forced entry.
- Durable powder coated finish with Germ Guard Active Technology.
- Can be made from zintec steel for wet area applications P.O.A.

About Cycle-Works

Cycling is our passion. We believe that cycling is good for people, good for society and good for the environment. This belief underpins everything we do. We believe that the provision of quality facilities will increase the use and acceptance of the bicycle.

All our employees and associates cycle regularly in diverse disciplines such as commuting, touring and long distance audax rides. We are active in both local and national cycle campaigning.
