The Cycle Storage Specialists

Higher Kennet Shelter

Overview

The modern and stylish Kennet shelter is a sleek and elegant design that complements traditional and modern architecture. Each shelter can be custom made to fit a specific site and is available with either a single double sided access. The Kennet can be manufactured in such a way that the internal bays can span up to 6m, meaning you can park a large number of bikes on a 2-tier system.

The sleek design is also practical because the end frames come together at a single base plate that can be either embedded or surface mounted.

Features & Benefits

- Modern and curved design.
- Galvanised & powder coated mild steel construction.
- Clad in either PET or aluminum composite.
- Capacity: Rows can be as long as required.
- Low target for graffiti as it has a high roof and no large area.
- Ideal for our high capacity 2-tier racks.
- Available with either a single double sided access

About Cycle-Works

Cycling is our passion. We believe that cycling is good for people, good for society and good for the environment. This belief underpins everything we do. We believe that the provision of quality facilities will increase the use and acceptance of the bicycle.

All our employees and associates cycle regularly in diverse disciplines such as commuting, touring and long distance audax rides. We are active in both local and national cycle campaigning.
