The Cycle Storage Specialists

## 2 Tier Folding Bike Locker

### Locker Dimensions

Width 565mm / Height 850mm (1700mm overall) / Depth 850mm

### Internal

Width 435mm / Height 710mm / Depth 800mm

## Overview

The Cycle-Works folding bike locker is secure, stylish, strong and easy to use. We designed it to fit almost all folding bikes, not just the smaller Brompton's. We have kept it 2 high to avoid strain and potential injury when lifting. When a bike is in the locker there is also enough room to secure a helmet, rucksack, panniers and a change of clothing.

The lockers are secured with a high security 3 point locking system that works like a safe, rotating to move 3 locking bars deep into the surrounding framework.

Externally the lockers have a versatile and unique encased padlock and over ride locking system. This master over-ride system means the lockers can be quickly and easily opened by site management, completely bypassing the users own lock. We have also designed the lock to be able to be secured with either a D-Lock, cable or padlock. This means the users don't have to worry about keys or combination numbers if they want to use their own bike lock.

## Features & Benefits

- Fits most folding bikes.
- Mild galvanised steel construction.
- Designed in Southsea & 'Made in Britain'
- Locks with either D-lock, cable lock or padlock.
- Integrated master over-ride system.
- Available in any standard RAL colour.

### About Cycle-Works

Cycling is our passion. We believe that cycling is good for people, good for society and good for the environment. This belief underpins everything we do. We believe that the provision of quality facilities will increase the use and acceptance of the bicycle.

All our employees and associates cycle regularly in diverse disciplines such as commuting, touring and long distance audax rides. We are active in both local and national cycle campaigning.
