The Cycle Storage Specialists

## BikeAway Locker

### Dimensions in mm

Width 680  
Depth 1150  
Height 1900 to 2000

## Overview

The BikeAway is a galvanised steel bicycle locker which stores the bike vertically. There is no metal-to-metal contact between the bike and locker and the bike is stored safely off the ground. Therefore, this locker is a popular option for schools, colleges and large organisations.

The cyclist uses their own padlock to lock the door. An override mechanism then allows the operator to obtain independent access to the locker when necessary, it is especially relevant for security-sensitive areas where spot-checks need to be carried out.

## Features & Benefits

- Space efficient - small footprint
- Sturdy 1.5mm galvanised steel construction
- Easy-to-use and suitable for use in schools
- 12 lockers fit into two standard car parking spaces.
- The legs can be adjusted to accommodate gradients.
- Coloured in RAL6005 (British Racing Green) or RAL5003 (Oxford Blue), other RAL colours are available for large quantities.

## About Cycle-Works

Cycling is our passion. We believe that cycling is good for people, good for society and good for the environment. This belief underpins everything we do. We believe that the provision of quality facilities will increase the use and acceptance of the bicycle.

All our employees and associates cycle regularly in diverse disciplines such as commuting, touring and long distance audax rides. We are active in both local and national cycle campaigning.
