

BikeAway - Single, Double & Wall Racks

Overview

This functional and well-designed rack is the free-standing version of the BikeAway wall-hoop rack and parks the bike vertically. It is a space-efficient and cost-effective way of storing a bicycle.

The patented hoop design of the Free-Standing BikeAway allows the cycle to be securely held in an upright position whilst the ramp carefully lifts the mudguard off the ground, protecting it from damage.

A double rack stores two bikes back to back, off a central spine. The wall rack is the top patented hoop that is affixed to a wall to hold your bike in place.

Self assembly required for all models, full and easy fitting instructions are provided.

Features & Benefits

- Space-efficient.
- Affordable bike parking.
- Securely holds the bike in place.
- Neat and organised individual parking.
- Single or double (back to back) storage.
- No contact with any metal parts, only tyres.

About Cycle-Works

Cycling is our passion. We believe that cycling is good for people, good for society and good for the environment. This belief underpins everything we do. We believe that the provision of quality facilities will increase the use and acceptance of the bicycle.

All our employees and associates cycle regularly in diverse disciplines such as commuting, touring and long distance audax rides. We are active in both local and national cycle campaigning.
