The Cycle Storage Specialists

Custom made cages and compounds

Abbots House, Reading

Type	Offices - HQ of Scottish Widows
Contractor	ISG Plc
Project	Construct Secure compound enclosing Josta 2-tier racks
Access	Smart card access, linked to the sites access control system

Overview

Secure Bike Parking is critical, and one way to do this is by making secure bike compounds and cages. Cycle-works are experts at this, and have designed many facilities to enclose either single level or 2-tier bike parking. Sites can also be designed for single level now, but with the potential to add 2-tier racks later as demand rises.

Every site is different and so presents its own series of challenges, including lack of space, low ceiling heights, extruding pipes and cables, existing structures, the need for multi-user access, security and vandalism, or dealing with the elements. Because all of our cages and compounds are custom made, any problems or issues can be easily overcome, giving you the very best solution available

Fortex 358 fencing

We carefully select the very best materials that are fit for purpose and designed to be tough. The world renowned Fortex 358 (or prison mesh fencing) that we use is engineered to keep intruders out at all costs. For this reason, it is widely used by the Ministry of Defence, airports, secure units and prisons.

Narrow apertures form the mesh making it almost impossible to climb, with no points for foot or hand holds. The Fortex 358 panels are overlapped at each post and secured by a full length clamp strip, domed headed bolts and permacone security fixings. The fine mesh construction is perfect for areas that are covered by CCTV as it doesn't give any blind spots.

Merseyrail

Merseyrail recently upgraded 22 of their stations on the Northern and Wirral lines with secure compounds and high quality Josta® 2-tier racks. Each of these compounds has access control. Southport Station was awarded the 'Station of the Year' at the ATOC National Cycle Rail Awards 2012, held at the Houses of Parliament.

About Cycle-Works

Cycling is our passion. We believe that cycling is good for people, good for society and good for the environment. This belief underpins everything we do. We believe that the provision of quality facilities will increase the use and acceptance of the bicycle.

All our employees and associates cycle regularly in diverse disciplines such as commuting, touring and long distance audax rides. We are active in both local and national cycle campaigning.

Our Products

- Individual bicycle lockers
