Josta 2-tier Cycle-Store

Overview

The Josta 2-tier Cycle-Store combines the space-saving qualities of the Josta 2-tier rack with the advantages of a lockable and secure shelter.

As two bikes are parked directly on top of each other, this system increases the number of bicycles parked by up to 50%, or reduces the size of the site needed. This effectively and securely parks ten bikes in a space no bigger than half a standard car park space.

The Cycle-Store is easy to use, there is no need to lift the top bicycle, as the rack comes down for loading and unloading. A special patented gripping mechanism ensures that the bike cannot roll back and injure the user. In order to allow easy access to the locker, a minimum of 2m of free space in front of the doors is recommended.

Features & Benefits

- High capacity parking where you need it.
- Secure lockable compound.
- Huge advertising potential.
- Made from recyclable materials.
- Easy to relocate.
- Can be surface mounted.

Josta 2-tier Cycle-Store

Capacity

Ten bicycles per unit – 5 bikes at the top, 5 at the bottom, directly underneath.

Dimensions

Wide: 2600mm

Deep: 2800mm

High: 3000mm

About Cycle-Works

Cycling is our passion. We believe that cycling is good for people, good for society and good for the environment. This belief underpins every-thing we do. We believe that the provision of quality facilities will in-crease the use and acceptance of the bicycle.

All our employees and associates cycle regularly in diverse disciplines such as commuting, touring and long distance audax rides. We are active in both local and national cycle campaigning.
