The Cycle Storage Specialists

HD-Rack (high density bike rack)

Overview

The Cycle-Works designed and manufactured **HD Rack** is a new, easy to use and functional high density bike rack. The bike is simply rolled up the channel, and the front wheel is held securely in place.

One of the benefits is that the racks are able to be installed in a high-low-high formation. This means 400mm centers or less are possible making the **HD Rack** and easy to use and high density solution.

The racks can be installed at various angles to the wall to accommodate awkward locations and still achieve a high density of parking. The rack can also be used in other systems, such as in shelters or the Velo-Store.

Features & Benefits

- Easy and intuitive to use - the bike is held in place.
- The bike is held upright and stable
- Can be angled to accommodate tight spaces
- Neat, organized bike parking (bikes cannot move on the rack, unlike on Sheffield stands)
- No leverage points for a brute force attack
- Effective use of space - High Density
- Powder coated in any standard RAL colour
- Convenient locking points. One secure point at the rear with another for the front.
- Designed and "Made in Britain"

Locking Points

The rear locking bar is very easy to use and allows the rear wheel and frame to be locked together. The rack captures and protects the front wheel and also has a convenient locking point.

Materials & Installations

The rack is manufactured from thick pre galvanised steel sheet, laser cut into shape and then precision folded into its final form.

The **HD Rack** is available in any standard RAL colour or can be left galvanised.

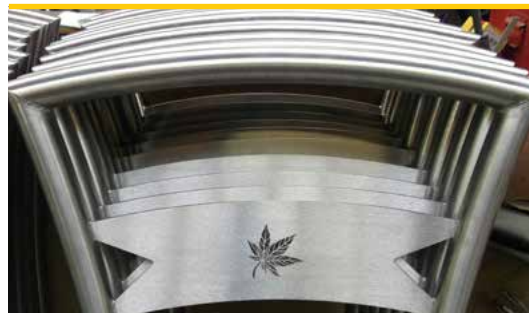

It can be installed quickly, without the need for expensive groundworks.

About Cycle-Works

Cycling is our passion. We believe that cycling is good for people, good for society and good for the environment. This belief underpins everything we do. We believe that the provision of quality facilities will increase the use and acceptance of the bicycle.

All our employees and associates cycle regularly in diverse disciplines such as commuting, touring and long distance audax rides. We are active in both local and national cycle campaigning.

Our Products

- Individual bicycle lockers
